LITTLE PROGRESS IS MADE SO FAR.

Financial Bill to Be Discussed in the House for a Week and Final Vote Will Probaby Be Taken December 18.

Washington, Dec. 8.-The special committee of the house appointed to investigate the charges against Mr. Roberts, the Mormon representative from Utah, held its first meeting Thurslay behind closed doors. The meeting was called for the purpose of determining the method of procedure in the case. It was presided over by the chairman, Mr. Tayler, of Ohio. All the other members of the committee were present - Messrs, Morris, of Minnesota; Freer, of West Virginia; Littlefield, of Maine: McPherson, of Iowa; Landis, of Indiana, republicans, and De Armond. of Missouri; Lanham, of Texas, and Miers, of Indiana, democrats.

The question as to whether the committee will go to Utah to take testimony was also raised, but it was not decided at the meeting Thursday. There must be a good reason why the coffee lovers of America buy millions of pounds of ARBUCKLES' COFFEE in preference to any other kind. The reason is found in its rich drinking qualities; in its permanent goodness. The quality never changes. Whether you buy it of a big coffee dealer or at a little grocery store around the corner, you get the same coffee, the same goodness, the same value for your money. You can't be

Roaster Cone

It is prepared by an individual firm who value their reputation too highly to endanger it by lowering the standard of their coffee. It is hermetically sealed and put up in packages by people of many years experience and utmost reliability. It is not ground because ground coffee loses two-thirds of its flavor before reaching the consumer. It is not sold in bulk because of the possibilities of adulteration. It is not sold at a high price because it is better to sell millions of pounds of coffee at a small profit than hundreds of pounds at a large profit.

Every mackage of Arbuckles' Roasted Coffee contains information about many valuable articles that the consumer is entitled to receive. Ask your grocer for Arbuckles' Roasted Coffee.

SPANISH NEWSPAPERS.

La Epoca, a Highly Conservative Journal, Is Edited and in Part Owned by a Nobleman.

Madrid, the Spanish capital, has one or two papers which have a fair circulation, but they cannot compare in importance, as to their influence over their own country's population, with other first-class continental newspaperswith the best productions of Austria, Russia, or even Italy, says a writer in the Pall Mall Gazette. Of the Spanish papers probably the Imparcial has the greatest sale among the people of Springs, and John Hunter, of Albion, Madrid, but the chief paper for influence among the better classes is La Epoca, which is a conservative journal of very old repute, having been established for over half a century.

La Epoca has never supported any other party in Spain but the high conmusic ice cream and assorted cakes servatives. Its present circulation may be taken as being about 12,000 daily, and it is edited by Marquis de Valdiglesias, who is also one of its proprietors. It is a four-page journal, whose columns are principally given over to news from Spanish sources, and its supply of foreign matter and doings, as we know them in this country, is but scanty. There is generally a leading article of importance in its first column, and the latter half of its fourth page is given to the "serial," which is as much in vogue in Spain as elsewhere on the continent.

Birds and Beasts at War.

You would hardly believe that moles, clumsy and almost blind, become perfect demons when they quarrel. No one knows what they quarrel about, but if they once start fighting one has to die. They will keep on in the presonce of any number of spectators, hanging on to one another like bulldags and burying their enormously strong jaws and teeth in one another's flesh. Hedgehogs, another type of the quiet, inoffensive-looking animal, not only fight, but always to the death, and when one is killed the other generally devours him. Hares, on the other hand, are proverbfally the most timid of creatures, yet they can fight. A fight between two hares is a fullerous sight, as they skip and jump over one another. But a blow from the hind legs of a hare is no joke to his opponent. Among birds robins are the most pugnacious. More than edicine but doctors order it, because so frantically set on killing one another is healthful, invigorating and appe- as to have allowed themselves to be
